Job Title: Trainee Project Coordinator

About the role: We are looking for a **Trainee Project Coordinator** to join our team and gain hands-on experience in managing and supporting projects across various domains. This role is ideal for fresh graduates or individuals eager to learn how to plan, coordinate, and deliver projects effectively. You will work closely with project managers, developers, designers, and business teams to ensure smooth project execution, timely delivery, and clear communication among stakeholders.

Responsibilities:

- Assist project managers in planning, scheduling, and tracking project activities and deliverables.

- Coordinate with internal teams to ensure tasks are completed on time and as per requirements.
- Maintain project documentation, reports, and meeting notes.
- Monitor project progress and highlight risks, delays, or dependencies.
- Support in preparing project plans, timelines, and status reports.
- Facilitate communication between cross-functional teams and stakeholders. ● Participate in client and internal meetings, documenting action points and follow-ups. ● Learn and use project management tools such as JIRA, Trello, Asana, or Microsoft Project.

Candidate Requirement:

- Basic understanding of project management principles and the software development lifecycle (SDLC).
- Strong organizational and multitasking skills.
- Excellent communication and coordination abilities.
- Proficiency in MS Office (Excel, Word, PowerPoint) or Google Workspace tools.
- Familiarity with project tracking tools (JIRA, Asana, Trello) is a plus.
- Ability to work collaboratively in a fast-paced, Agile environment.
- A degree in Business Administration, Project Management, IT, or a related field is preferred.
- Internship experience or academic projects in project coordination or management will be an advantage.

Job Title: Business Analyst

About the role: We are looking for a **Trainee Business Analyst** to join our team and gain hands-on experience in analyzing business processes, gathering requirements, and supporting digital transformation projects. This role is ideal for fresh graduates or individuals passionate about bridging the gap between business needs and technical solutions. You will work closely with senior business analysts, project managers, and development teams to ensure smooth project execution and alignment with business objectives.

Responsibilities:

- Assist in gathering and documenting business requirements, workflows, and user stories.
- Participate in meetings with clients and internal teams to understand project goals and challenges.
- Analyze business processes and suggest improvements or automation opportunities. ● Support in preparing requirement specification documents, functional specifications, and process flow diagrams.
- Collaborate with development and QA teams to ensure requirements are accurately implemented.
- Help with data analysis, reporting, and validation to support decision-making. ● Conduct market or competitor research to support strategic recommendations. ● Learn to use tools like JIRA, Confluence, MS Excel, and data visualization software.

Candidate Requirement:

- Basic understanding of business analysis concepts, SDLC, and requirement gathering processes.
- Familiarity with documentation, process mapping, and data interpretation.
- Strong analytical, communication, and presentation skills.
- Proficiency in MS Office (especially Excel, Word, and PowerPoint).
- Knowledge of tools like JIRA, Trello, or similar project management software is a plus.
- Ability to work collaboratively in a team and adapt to Agile environments. ● A degree in Business Administration, Information Technology, Computer Science, or a related field is preferred.
- Internship experience or academic projects involving business analysis or data analytics will be an advantage.

Job Title: Trainee Shopify Developer

About the role: We are looking for a **Trainee Shopify Developer** to join our development team and gain hands-on experience in building, customizing, and optimizing Shopify-based e-commerce websites. This role is ideal for fresh graduates or individuals passionate about web

development and e-commerce platforms. You will work closely with senior developers and designers to create engaging, high-performing online stores using Shopify and related technologies.

Responsibilities:

- Assist in developing and customizing Shopify themes and templates using Liquid, HTML, CSS, and JavaScript.
- Support in setting up Shopify stores, installing apps, and configuring payment/shipping settings.
- Collaborate with the design team to implement responsive and visually appealing layouts.
- Work with APIs and integrations to connect Shopify with third-party tools or systems.
- Troubleshoot and debug technical issues related to Shopify themes or apps. ● Participate in testing and quality checks before website launches.
- Stay updated with the latest Shopify updates, tools, and best development practices. Assist in maintaining and updating existing Shopify stores as needed.

Candidate Requirement:

- Basic understanding of web development technologies — HTML, CSS, JavaScript, and Liquid.
- Familiarity with Shopify platform, themes, and app ecosystem is an advantage.
- Knowledge of RESTful APIs and JSON is a plus.
- Strong problem-solving and debugging skills.
- Eagerness to learn new tools and technologies in e-commerce development. ● Ability to work in a collaborative team environment and follow Agile practices. ● A degree in Computer Science, IT, Web Development, or a related field is preferred. ● Internship experience, coursework, or personal projects in Shopify or front-end development will be an added advantage.

Job Title: Trainee HR

About the Role: We are looking for a **Trainee HR** to join our Human Resources team and gain

hands-on experience in recruitment, employee engagement, payroll, and HR operations. This role is ideal for fresh graduates or individuals passionate about people management, talent acquisition, and HR policies. You will work closely with senior HR professionals to support daily HR functions and contribute to building a positive workplace culture.

Responsibilities:

● Assist in recruitment processes, including sourcing candidates, screening resumes, and scheduling interviews.
● Support onboarding and induction programs for new employees.
● Maintain and update employee records and HR databases.
● Assist in payroll processing, leave management, and attendance tracking. ● Help organize training and development programs.
● Support employee engagement initiatives and HR events.
● Ensure compliance with HR policies, labor laws, and company regulations. ● Stay updated with HR trends, recruitment strategies, and best practices.

Candidate Requirement:

● Basic understanding of HR functions, recruitment, and labor laws.
● Strong communication and interpersonal skills.
● Proficiency in MS Office (Excel, Word, PowerPoint) and HR software is a plus. ● Ability to maintain confidentiality and handle sensitive information.
● A degree in Human Resources, Business Administration, or a related field is preferred.

Job Title: Trainee Nodejs

About the role: We are looking for a **Trainee Node.js Developer** to join our backend development team and gain hands-on experience in building scalable, high-performance web applications. This role is ideal for fresh graduates or individuals passionate about server-side programming and modern JavaScript frameworks. You will work closely with senior developers to design, develop, and maintain backend logic, APIs, and integrations for various web and mobile applications.

Responsibilities:

- Assist in developing and maintaining server-side logic using Node.js and related frameworks (e.g., Express.js, Nest.js).
- Support in creating and managing RESTful APIs for web and mobile applications. ● Collaborate with front-end developers to integrate user-facing elements with server-side logic.
- Work with databases such as MongoDB, MySQL, or PostgreSQL for data management and queries.
- Debug, test, and optimize backend code for performance and scalability. ● Learn and follow best practices for security, authentication, and API design. ● Participate in code reviews, daily standups, and sprint planning sessions. ●

Stay updated with emerging technologies and backend development trends.

Candidate Requirement:

● Basic understanding of JavaScript, Node.js, and backend development concepts. ● Familiarity with REST APIs, JSON, and database management systems (MongoDB, MySQL, etc.).
● Knowledge of Express.js or similar frameworks is a plus.
● Understanding of Git version control and basic command-line operations.
● Strong problem-solving and debugging skills.
● Eagerness to learn new technologies and work in a collaborative Agile environment. ● A degree in Computer Science, Information Technology, or a related field is preferred. ● Internship experience or personal projects involving Node.js or web application development will be an advantage.

Job Title: Trainee Next.js

About the role: We are looking for a **Trainee Next.js Developer** to join our backend development team and gain hands-on experience in building scalable, high-performance web applications. This role is ideal for fresh graduates or individuals passionate about server-side programming and modern JavaScript frameworks. You will work closely with senior developers to design, develop, and maintain backend logic, APIs, and integrations for various web and mobile applications.

Responsibilities:

● Assist in developing responsive and dynamic web applications using Next.js and React.js.
● Collaborate with designers to translate UI/UX wireframes into functional components.
● Work on both client-side and server-side rendering features in Next.js. ● Help in integrating APIs and managing data flow using REST or GraphQL. ● Support in

performance optimization and SEO best practices for Next.js applications. ● Participate in testing, debugging, and deploying applications.
- Learn and follow coding best practices, version control (Git), and Agile development methodologies.
- Stay updated with the latest Next.js and React ecosystem tools, libraries, and updates.

Candidate Requirement:

- Basic understanding of JavaScript, React.js, and modern web development concepts.
- Familiarity with Next.js, HTML5, CSS3, and Tailwind CSS or similar frameworks. ● Knowledge of APIs, routing, and server-side rendering (SSR) is a plus. ● Understanding of Git and collaborative version control workflows.
- Strong problem-solving, analytical, and debugging skills.
- Eagerness to learn and grow in a fast-paced, Agile environment.
- A degree in Computer Science, IT, or a related field is preferred.
- Internship experience or personal projects involving React.js or Next.js development will be an added advantage.

Job Title: Trainee AI Engineer

About the role: We are looking for **Trainee AI Engineer** to join our team and gain hands-on experience in developing and deploying artificial intelligence and machine learning solutions. This role is ideal for fresh graduates or individuals passionate about data, algorithms, and automation. You will work closely with data scientists, software developers, and project teams to build intelligent systems that solve real-world problems using AI technologies.

Responsibilities:

- Assist in designing, developing, and deploying machine learning and AI models.

● Work with data scientists to clean, preprocess, and analyze large datasets. ● Support in training, testing, and evaluating ML models using frameworks like TensorFlow, PyTorch, or Scikit-learn.
● Collaborate with developers to integrate AI models into web or mobile applications.
● Help in creating APIs and automation pipelines for model deployment. ● Research and experiment with new AI tools, models, and techniques. ● Document experiments, results, and workflows for team reference.
● Stay updated with the latest advancements in AI, ML, NLP, and data science.

Candidate Requirement:

● Basic understanding of machine learning, deep learning, and data analysis concepts. ● Proficiency in Python and familiarity with libraries such as NumPy, Pandas, Scikit-learn, TensorFlow, or PyTorch.
● Knowledge of SQL and data visualization tools (e.g., Matplotlib, Power BI) is a plus.
● Familiarity with APIs, cloud platforms (AWS, Azure, or Google Cloud), or model deployment frameworks is advantageous.
● Strong mathematical and analytical problem-solving skills.
● Ability to work collaboratively in a team and follow Agile methodologies. ● A degree in Computer Science, Data Science, Artificial Intelligence, or a related field is preferred.
● Internship experience, coursework, or personal projects in AI or ML will be an added advantage.

Job Title: Trainee VTEX Developer

About the role: We are looking for a **Trainee VTEX Developer** to join our e-commerce development team and gain hands-on experience in building, customizing, and maintaining online stores on the VTEX platform. This role is ideal for fresh graduates or individuals passionate about e-commerce technologies and front-end development. You will work closely with senior developers, designers, and project managers to deliver seamless, high-performing digital shopping experiences.

Responsibilities:

- Assist in developing, customizing, and maintaining e-commerce stores using the VTEX IO platform.
- Collaborate with designers to implement responsive and visually appealing UI components.
- Work with HTML, CSS, JavaScript, React, and VTEX APIs to create dynamic storefronts.
- Support in integrating third-party applications, payment gateways, and logistics systems.
- Help in troubleshooting, debugging, and optimizing website performance. ● Participate in testing and quality assurance before site launches.
- Learn and follow VTEX best practices, coding standards, and deployment processes. ● Stay updated with the latest VTEX updates, tools, and e-commerce development trends.

Candidate Requirement:

- Basic understanding of HTML, CSS, JavaScript, and React.js.
- Familiarity with VTEX platform or other e-commerce platforms (e.g., Shopify, Magento) is an advantage.
- Knowledge of RESTful APIs and JSON.
- Understanding of Git version control and basic command-line operations.
- Strong analytical and problem-solving skills with attention to detail.
- Ability to work collaboratively in a team and adapt to Agile project environments. ● A degree in Computer Science, Information Technology, or a related field is preferred. ● Internship experience, coursework, or personal projects involving e-commerce or front-end development will be an added advantage.

Job Title: Trainee SEO/SMO

About the role: We are looking for a **Trainee Marketing (SEO/SMO)** to join our digital marketing team and gain hands-on experience in search engine optimization, social media marketing, and online branding. This role is ideal for fresh graduates or individuals passionate about digital marketing and eager to learn how to grow online presence and engagement. You will work closely with senior marketing executives and content teams to implement SEO strategies, manage social media platforms, and analyze campaign performance.

Responsibilities:

- Assist in executing on-page and off-page SEO strategies to improve website rankings and traffic.
- Perform keyword research, competitor analysis, and SEO audits using tools like Google Analytics, Ahrefs, or SEMrush.
- Support in creating and optimizing content for search engines and social media platforms.
- Help manage and grow brand presence on social media platforms (Facebook, Instagram, LinkedIn, Twitter, etc.).
- Monitor engagement metrics, analyze performance, and prepare reports on SEO and SMO activities.
- Collaborate with design and content teams to develop engaging digital content and campaigns.
- Stay updated with the latest trends, algorithms, and best practices in SEO, SEM, and social media marketing.
- Learn to use digital marketing tools such as Google Search Console, Meta Business Suite, and scheduling platforms.

Candidate Requirement:

- Basic understanding of SEO, social media marketing, and digital marketing concepts. ● Familiarity with Google Analytics, Search Console, and keyword research tools is a plus. ● Knowledge of content marketing, hashtags, and social media engagement techniques. ● Strong communication, analytical, and creative thinking skills.
- Ability to work collaboratively in a team and manage multiple tasks.
- Proficiency in MS Office or Google Workspace tools.
- A degree in Marketing, Mass Communication, Business Administration, or a related field is preferred.
- Internship experience, coursework, or personal projects in digital marketing will be an added advantage.

Job Title: Trainee Sales

About the role: We are looking for a **Trainee Sales** to join our team and gain practical experience in business development, client engagement, and sales operations. This role is ideal

for fresh graduates or individuals eager to learn how to build customer relationships, identify new business opportunities, and contribute to revenue growth. You will work closely with the sales and marketing teams to understand products, support client communication, and assist in achieving sales targets.

Responsibilities:

- Assist in identifying and generating new business leads through research, networking, and outreach.
- Support the sales team in preparing proposals, presentations, and quotations for clients.
- Communicate with prospective and existing customers via calls, emails, or meetings to understand their requirements.
- Maintain and update customer databases and sales records in CRM tools. ● Collaborate with marketing and product teams to align sales strategies with business goals.
- Follow up with clients for feedback, negotiations, and closing opportunities. ● Participate in sales meetings, training sessions, and product demonstrations. ● Learn and apply effective sales techniques, communication, and negotiation skills.

Candidate Requirement:

- Strong communication and interpersonal skills with a customer-focused approach. ● Basic understanding of the sales process, lead generation, and business development. ● Proficiency in MS Office (Excel, Word, PowerPoint) or Google Workspace tools. ● Ability to learn quickly, handle multiple tasks, and meet deadlines.
- Self-motivated, result-oriented, and eager to build a career in sales.
- Team player with a proactive attitude and willingness to take initiative. ● A degree in Business Administration, Marketing, Commerce, or a related field is preferred.
- Internship experience or academic projects in sales, marketing, or client servicing will be an advantage.
